20m

### Trunk Diameter

2m

### Year planted

Remnant specimen,  
pre-dates European  
settlement.

### Age

445 years or older

### Origin

Local Native

### Council endorsed

18/11/08

G. 16/11/08

## Statement of significance

This remnant Jarrah pre-dated European settlement and is estimated to be over 445 years old. It is one of the largest known 'King' Jarrah trees in the Mandurah region.

Thankfully, this tree was retained during the construction of the Halls Head Shopping Centre and serves as an interesting focal point for customers and passers by.

**Right:** *This ancient King Jarrah dwarfs cars in the Halls Head shopping centre car park.*

**Below:** *The sparse canopies of mature Jarrah Trees appear disproportionately small to their massive trunks. but support a variety of local wildlife*
